

Energy Investigators Play Pictionary!

Step 1: Gather anyone in your house to play Pictionary!

Step 2: Review the energy terms listed below.

Step 3: Write each energy term on a small piece of paper and fold in half twice.

Step 3A: Combine all the paper pieces in a small bowl.

Step 4: Divide up the people in your household into two teams and get a timer prepared (a phone timer or an hourglass from another game set will do!).

Step 5: One player at a time will pick a piece of paper from the bowl and draw out the energy term on a whiteboard or large piece of paper.

Step 5A: That player's team will guess the energy term!

Step 5B: If they get it right – 1 point! If they get it wrong – 0 points! You can keep guessing until time runs out.

Energy Terms

- Vampire energy
- LED light bulb
- CFL light bulb
- Solar energy
- Wind energy
- Electric Vehicle
- Geothermal energy
- CO2 emissions
- Greenhouse Gases
- Light Switch timer
