

Energy Investigators Scavenger Hunt!

Instructions: Follow the path throughout your house to find all of the energy monsters!

Step 1: Find and locate all heating units (radiators, heating vents, floorboard heaters). How many are there? _____

Step 1A: Remove any items blocking the heating units. What did you remove? _____

Step 2: Locate all outlets with something plugged in. How many did you find? _____

Step 2A: Ask your parents/guardian which ones are not in use and unplug them. What kinds of things did you unplug?

Step 3: Ask your parents/guardian for help identifying any non-LED or CFL lightbulbs. How many did you find? _____

Step 3A: Ask your parents which ones can be changed easily. How many can you change? _____

Step 4: Locate all light switches in your house. How many did you find? _____

Step 4A: Think of a creative design for a light switch sign to help remind people to turn them off. Draw it here:

Step 5: Ask your parents if they've ever gotten a "Home Energy Audit".

Step 5A: If yes, ask them how long ago? _____

Step 5B: If it was more than 3 years ago, ask to get another one!

Step 5A: If no, ask them to get one!

Step 6: On the back of this sheet, draw a layout of your house.

Step 6A: Draw a smiley face on all the spots where you fixed or changed something. How many things did you change? _____

GREAT JOB! You defeated all the energy monsters!

Feel free to print out the first page to work on!

Note from Molly (CET),

If you have trouble viewing or are worried about scams or viruses – do not worry, this video was filmed by my mom in our house on my iPhone and then uploaded directly to my own personal Google Drive account. The video is also not necessary to view in order to complete the worksheet. I do apologize for the lack of closed captions on the video. I will happily send out a transcript of the video as requested. Happy hunting!
